Gould's Academy.

THIS Institution was incorporated in 1836 as BETHEL ACADEMY, and continued under this name until the year 1842, when it was changed to GOULD'S ACADEMY in honor of the Rev. DANIEL GOULD, who made a liberal bequest to the Academy on condition that it should be named after him.

The School is located on Bethel Hill, in one of the most attractive and beautiful villages in New England. The pleasant and healthful location, beautiful scenery, and romantic surroundings, make this a most desirable place for study. Students will find here less to attract their minds from study and to lead them to idle and vicious habits than in most country villages.

It offers the advantages of the following Courses and Departments of Study: Introductory Course, Higher English Course, Classical Course, College Preparatory Course, Commercial Department, and Music Department.

GENERAL INFORMATION.

General Exercises.

Exercises in Composition, Declamations, and Readings occur regularly during each Term. These exercises are imperative, and none are excused except for the most satisfactory reasons.

Commercial Department.

The Course of Study in this Department has been arranged for the Fall and Spring Terms, and is intended to be taken in connection with the studies of the other Courses. It includes the following branches: Penmanship, Drawing, Single and Double Entry Book-Keeping, Commercial Law, and Business Forms. Evening Sessions are held for the benefit of such students as are not able to attend the Day School.

Music Department.

It is believed that rare advantages are here offered for pursuing the study of Music. Instruction is given on the piano-forte, melodeon, or organ, and in the cultivation of the voice. Resident pupils will, perhaps, find it to their advantage to take these studies during the vacations.

Thorough instruction is also furnished in Oil Painting.

Examination and Exhibition.

There will be a Public Examination at the close of each Term, and an Exhibition at the close of the Fall and Spring Terms.

Graduation and Certificates.

Students who have completed any one of the regular Courses of Study, will receive a diploma certifying to that fact; certificates will also be awarded at the end of each year, to all those who have completed the studies of the year and passed a satisfactory examination in the same. Upon application to the Principal, students holding such certificates will be assisted in securing schools to teach.
